ETHICS AND TECHNOLOGY WHO TO TRUST?

EMERGING TECHNOLOGIES AND THE IMPLICATIONS FOR CHANGE
IN HEALTHCARE, EDUCATION, GOVERNANCE AND COMMERCE

PERRY KINKAIDE, MSc, PhD, CMC

FOUNDER & PAST-PRESIDENT, ALBERTA COUNCIL OF TECHNOLOGIES

What does the rate of speed of information access mean for our society? What does education look like in the face of Massive Open On-line Courses (MOOCs)? How do Healthcare providers and other professions serve the new informed and skeptical client? Where do regulatory forces come from in an increasingly deregulated global society?

Technology is profoundly changing the shape of society and its underlying economic base. The implications for production, trade and employment call for equally accelerated response strategies. What is the role of ethics in the development of these strategies in the brave new world?
